NUTRIENT INJECTION MENU

Energy Enhancement • Wellness • Mood Support
Hormone Health • Detox and Weight Loss
Athletic Performance • Radiance

WHAT IS A NUTRIENT INJECTION? A formula of vitamins, minerals, and antioxidants administered via intramuscular injection. Your body absorbs the nutrients easily so you feel the benefits.

WHAT ARE THE BENEFITS? Our physician-formulated nutrient injections meet a variety of needs: improved energy levels, mood and hormone balance, enhanced fat metabolism, elevated athletic performance, and more!

Additions

\$10 Add-ons:

B12: Boost energy, mood, and sleep quality

L-Carnitine: Cell food for better energy and improved cell function

Biotin: Enhance collagen production and energy

Vitamin C: Immune, adrenal, and antioxidant support

MIC (Methionine Inositol Choline): Essential amino acids for detoxification, increased calorie burning

CoQ10: Antioxidant, fertility, nervous system, and cardiovascular support

B Complex: Increase energy, sleep quality, and adrenal function

Glutathione: Potent antioxidant, detox, and immune support

We only use the methylated forms of B12 and folate in our nutrient shot formulations. We use lidocaine to make our nutrient shots as comfortable as possible. Please let us know if you are allergic to lidocaine or procaine prior to your service.
